Ultra-high Speed HDD Eraser (4ports)

SA330

30 GB/min.
Copy Speed

SA330 SAS HDD/SSD sanitizer lets you easily erase many types of interfaces via optional adapters to greatly enhance the efficiency. The built-in 7 main data erasure modes comply with NIST SP 800-88r1 and DoD 5220-M standards. It facilitates sanitization of HDD/SSD without the need of a computer and software and the transfer speed is up to 30 GB per minute.

In addition to data sanitization, it has 4 kinds of data duplication modes, including Systems & Files, Whole Media, All Partitions and Percentage % Copy.

Features

Various HDD data Erasure tools
6 Sanitization Modes: Full Erase(1-Pass Erase), DoD Erase, DoD Erase+Compare, 7-Pass Erase, Secure Erase, and Enhanced Secure Erase. Erase Functionality Compliant with NIST SP 800-88r1 and DoD 5220-M Standards

Ultra-high Speed of up to 30 GB /min
Conforms to SAS and SATA Revision 3.0 specification and achieves the maximum transfer speed of 30 GB per min.. The actual speed performance varies by storage media.

SATA 3.0
30 GB/min.
Ultra Hi-SPEED

Supports more interfaces with matching adapters

Supports all kinds of brands in the 2.5 "/3.5" SATA hard disks and solid state disks. Support IDE, iVDR, eSATA, mSATA SSD, M.2(NGFF), CFast and other interfaces via optional adapters

HDD Hardware Protection Design

Select the function you want, and the duplicator will power the HDD .It will also cut off the power after the task is completed. This is to avoid unplugging the HDD from the duplicator when the power is still on. The safety measures taken excel over hot swapping
